

APCI Analysis: BRFSS

Age–Period–Cohort–Interaction model (Luo & Hodges, 2020)

Age Main Effects

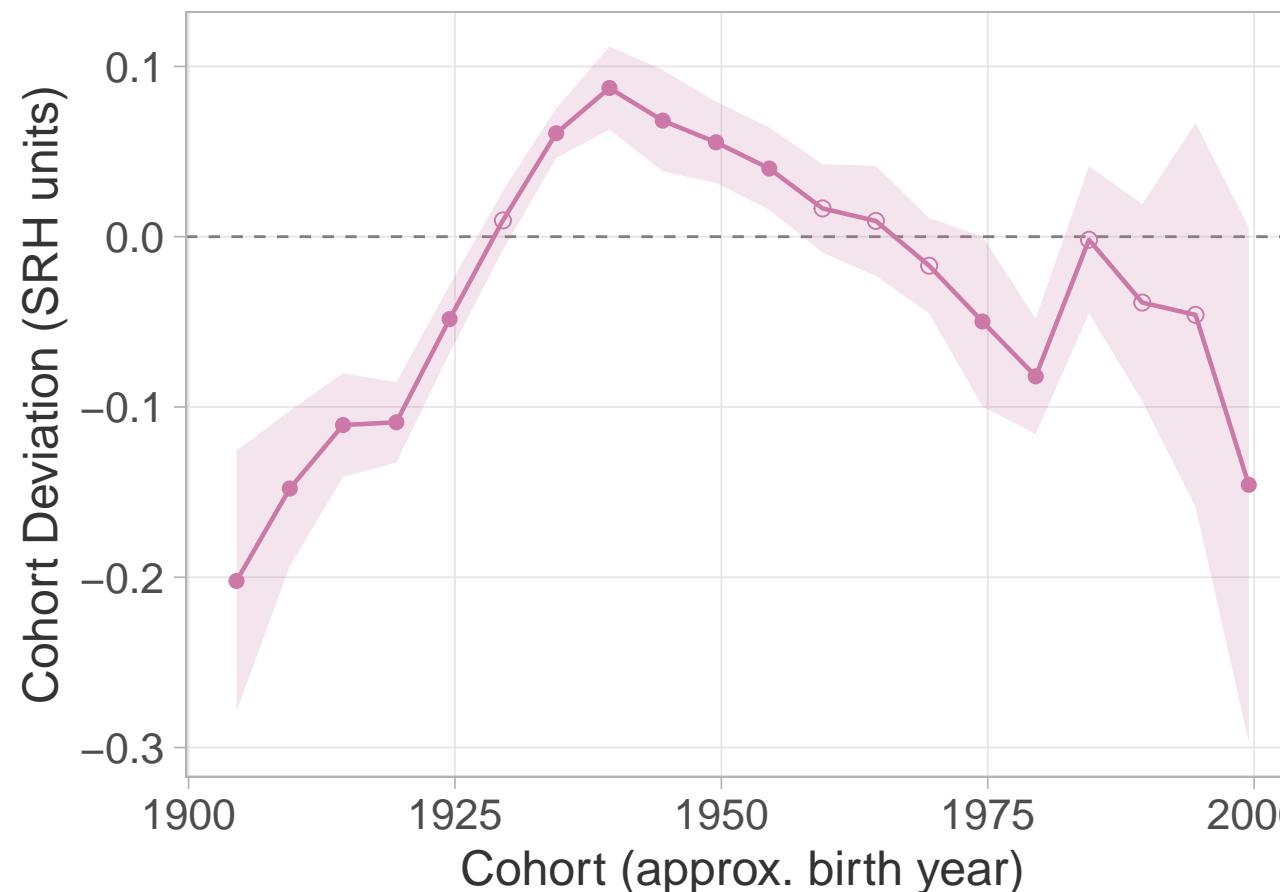

Period Main Effects

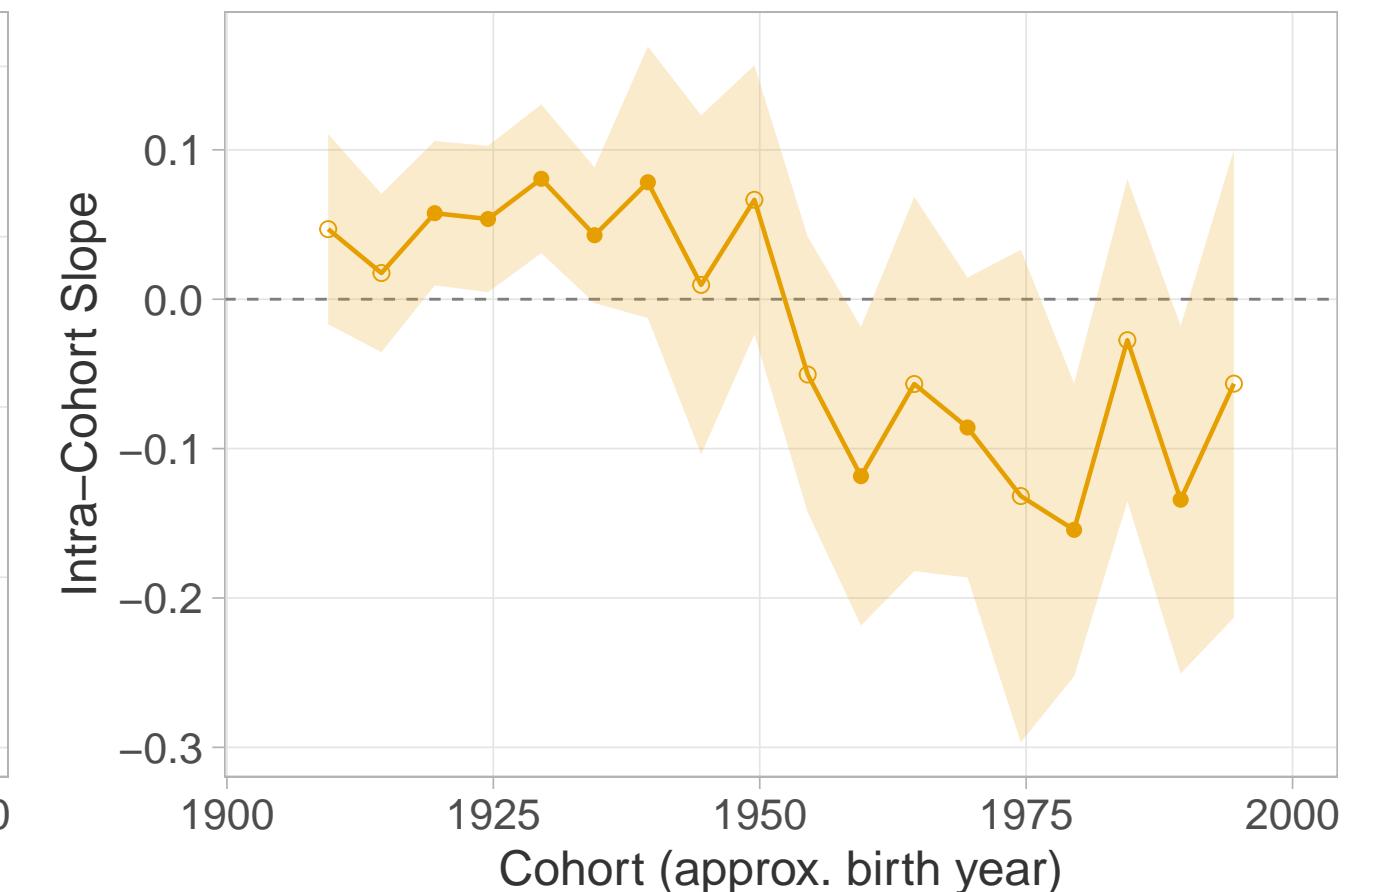

Inter–Cohort Deviations: BRFSS

Average deviation of each cohort from age + period main effects

Intra–Cohort Life–Course Slopes: BRFSS

Average slope of each cohort from age + period main effects
Positive = accumulating advantage; Negative = accumulating disadvantage

Significance ○ Not sig. ● p < 0.05

Filled points = p < 0.05

Significance ○ Not sig. ● p < 0.05

Filled points = p < 0.05
